COMPANY PROFILE

At **Gungunwala Food Equipment Pvt. Ltd.**, we don't just manufacture machines-we **engineer the backbone of food brands** across the globe. With over **1200+ project installations** and clients across **five continents**, our systems are built with a clear purpose: **to transform everyday snacks into industrial-scale opportunities** reliably, efficiently, and precisely.

Founded and led by industry veterans, our journey began with a single fryer and a bold vision-to make **world class snack processing accessible to every entrepreneur**, whether they're based in **Ahmedabad or Australia**. From **compact, affordable setups for rising manufacturers** to **fully automated, high-output production lines**, we help food businesses **move from local to global scale** without losing quality, flavor, or control.

WHAT SETS US APART

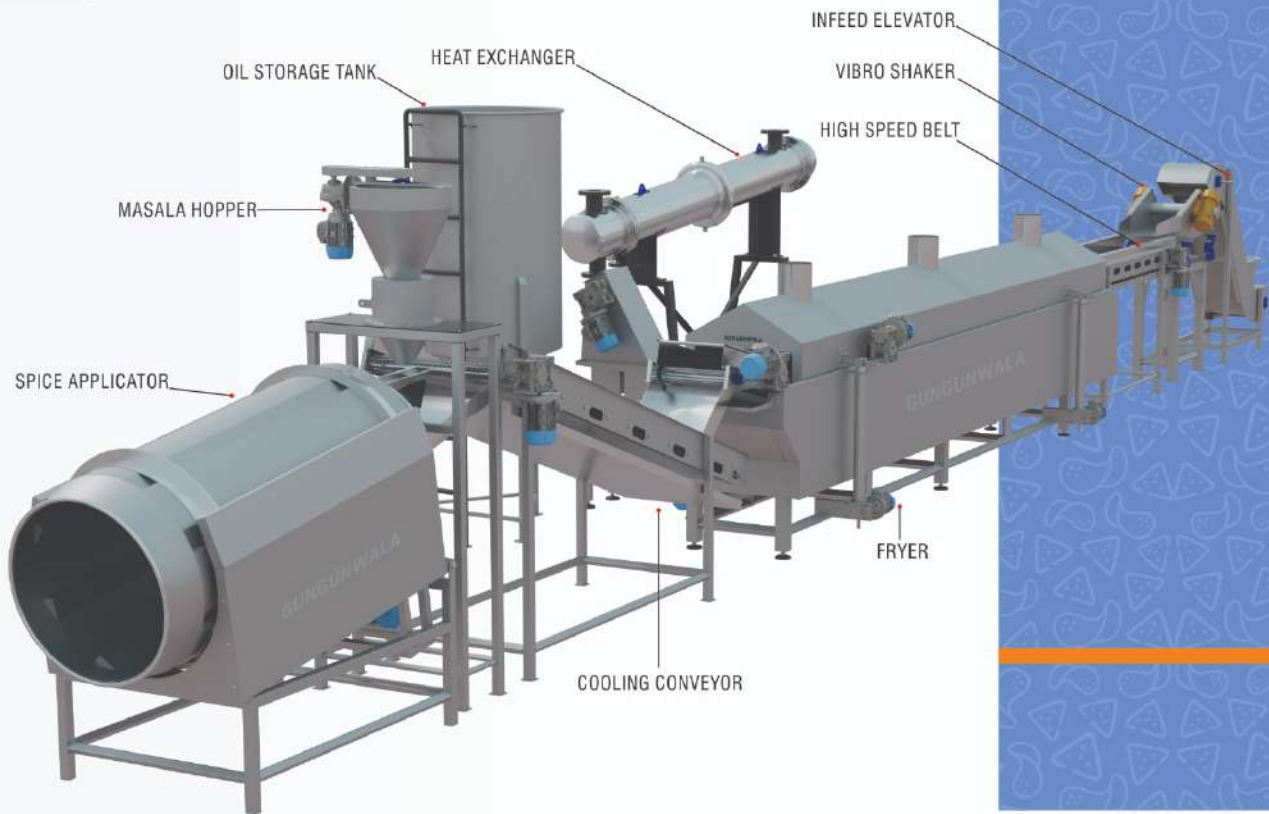

- 100% tailor-made systems built to match your space, speed, and scale
- Automation that saves oil, energy, and man-hours
- **Engineered with precision**, delivered with Indian agility
- Decades of trust from India's top snack brands
- Service you can actually count on

“ We don't just sell machinery-We partner in your growth story”

OUR INFRASTRUCTURE

TOTAL AREA : 35,000 sq. ft.

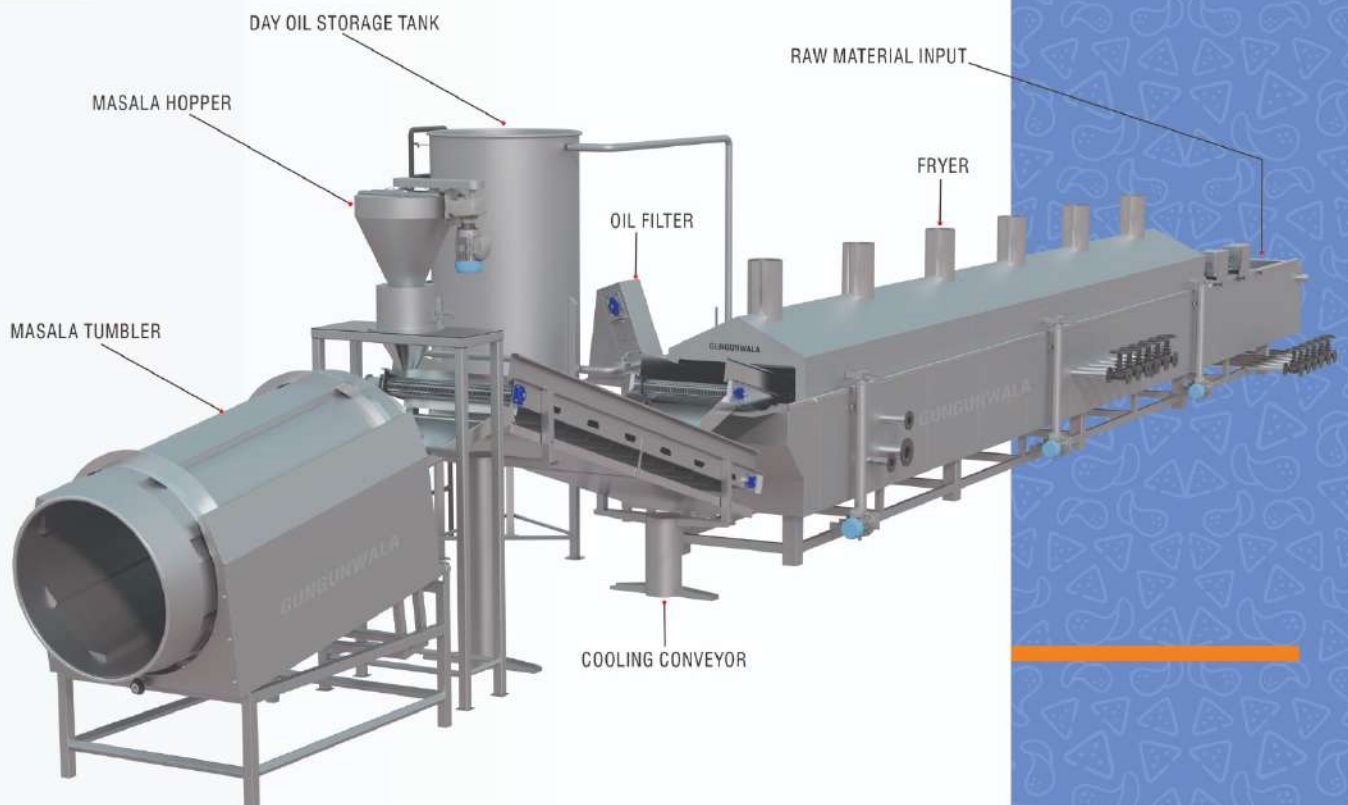

SEMI & FULLY AUTOMATIC POTATO CHIPS PRODUCTION LINE |

FEATURES

Model	SA-PCL-100	SA-PCL-200	SA-PCL-300
Production Capacity (Finished Chips)	100 Kg/Hr	200 Kg/Hr	300 Kg/Hr
Total Heat load	2 Lk Cal	4 Lk Cal	6 Lk Cal
Maximum Power Consumption	19 HP	20 HP	22 HP
Edible Oil Holding Capacity	480 Ltr.	580 Ltr.	670 Ltr.
Total Length of production line (Without Blancher)	55 Feet	55 Feet	55 Feet
Automation Level	PLC-HMI		
Product Detection Sensors	Attachment Available in all Models		
Blancher	Attachable in all Models		
Fryer Insulation	Fiber Glass Insulated Fryer Body (Minimizing Heat-Loss)		
Supported Potato Products	Plain Chips, Ruffles Chips & Potato Sticks		
Auto Oil Level Management System	Attachable in all Models		
Width	15 Feet	16 Feet	
Weight	Based on Models		

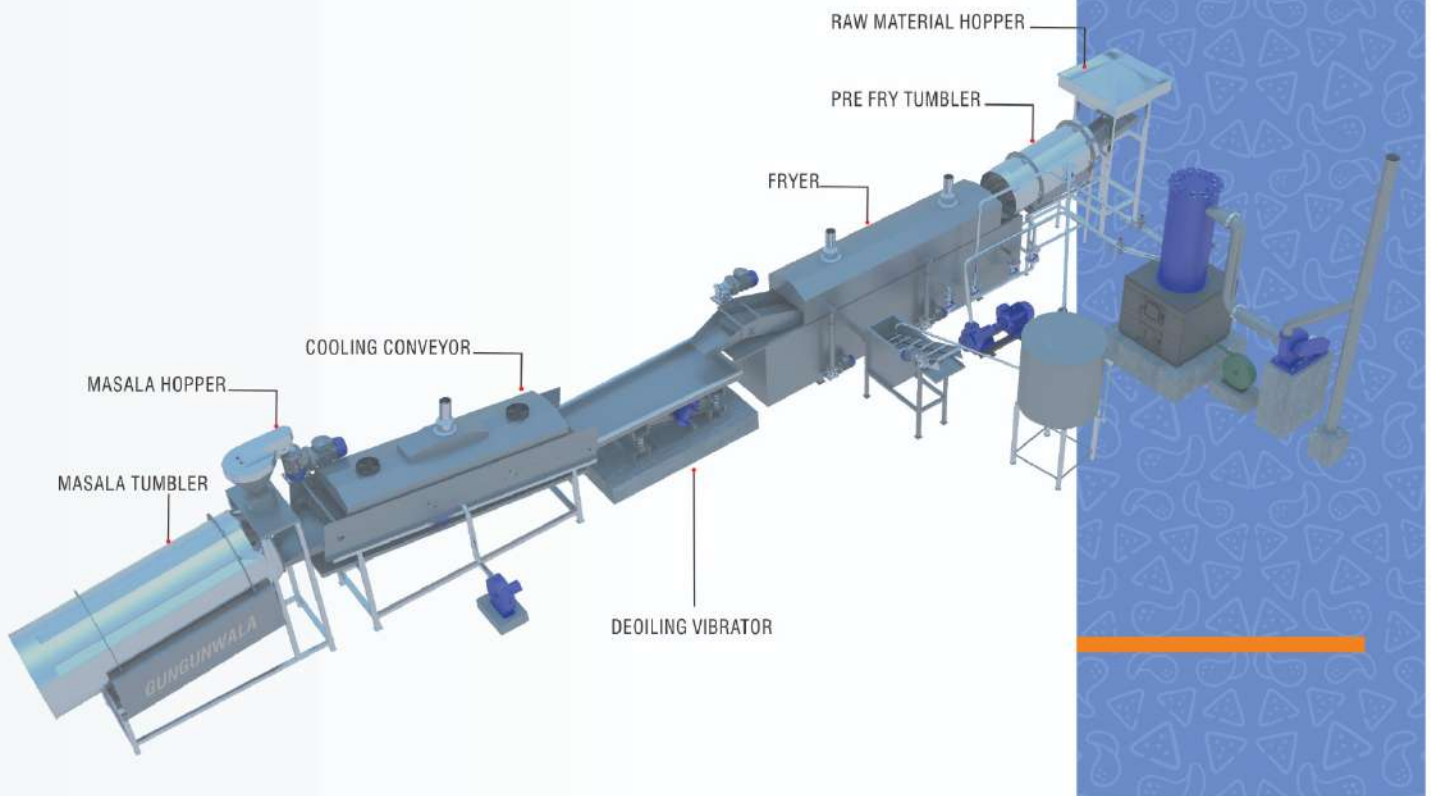

AUTOMATIC BANANA CHIPS PRODUCTION LINE

FEATURES

Model	BCL-100	BCL-200	BCL-300
Production Capacity (Finish Chips)	100 Kg/Hr	200 Kg/Hr	300 Kg/Hr
Total Heat load	2 Lk Cal	4 Lk Cal	6 Lk Cal
Maximum Power Consumption	8 HP	10 HP	12 HP
Edible Oil Holding Capacity	480 Ltr.	580 Ltr.	700 Ltr.
Total Length of production line (Without Blancher)	60 Feet	60 Feet	65 Feet
Automation Level	PLC-HMI		
Product Detection Sensors	Attachment Available in all Models		
Fryer Insulation	Fiber Glass Insulated Fryer Body (Minimizing Heat-Loss)		
Supported Banana Products	Round, Oval, Long, (Capacity may change based on shape)		
Auto Oil Level Management System	Attachable in all Models		
Width	15 Feet	16 Feet	

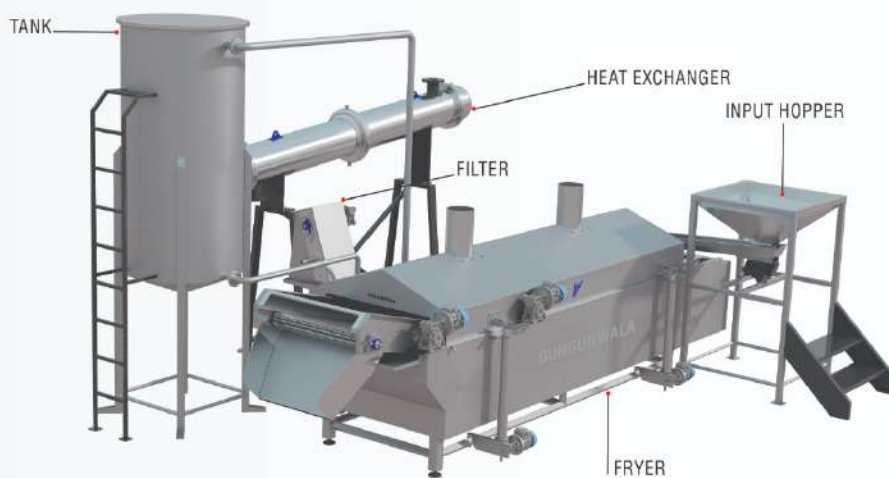

FULLY AUTOMATIC KURKURE & FRYUMS PRODUCTION LINE | FEATURES

Model	FA-FPL-300	FA-FPL-500	FA-FPL-1000
Production Capacity (Fried Fryums)	300 Kg/Hr	500 Kg/Hr	1000 Kg/Hr
Total Heat load	2.0 Lk Cal	2.5 Lk Cal	3.5 Lk Cal
Maximum Power Consumption	13 HP	14 HP	16 HP
Edible Oil Holding Capacity	270 Ltr.	300 Ltr.	390 Ltr.
Total Length of production line	47 Feet	47 Feet	50 Feet
Automation Level	PLC-HMI		
Product Detection Sensors	Attachment Available in all Models		
Deoiling Mechanism	De-Oiling Vibrator or Online Hydro Both Attachable		
Fryer Insulation	Fiber Glass Insulated Fryer Body (Minimizing Heat-Loss)		
Supported Products	Fryums, Extruded Snacks (Kurkure)		
Auto Oil Level Management System	Attachable in all Models		
Width	14 Feet	15 Feet	16 Feet

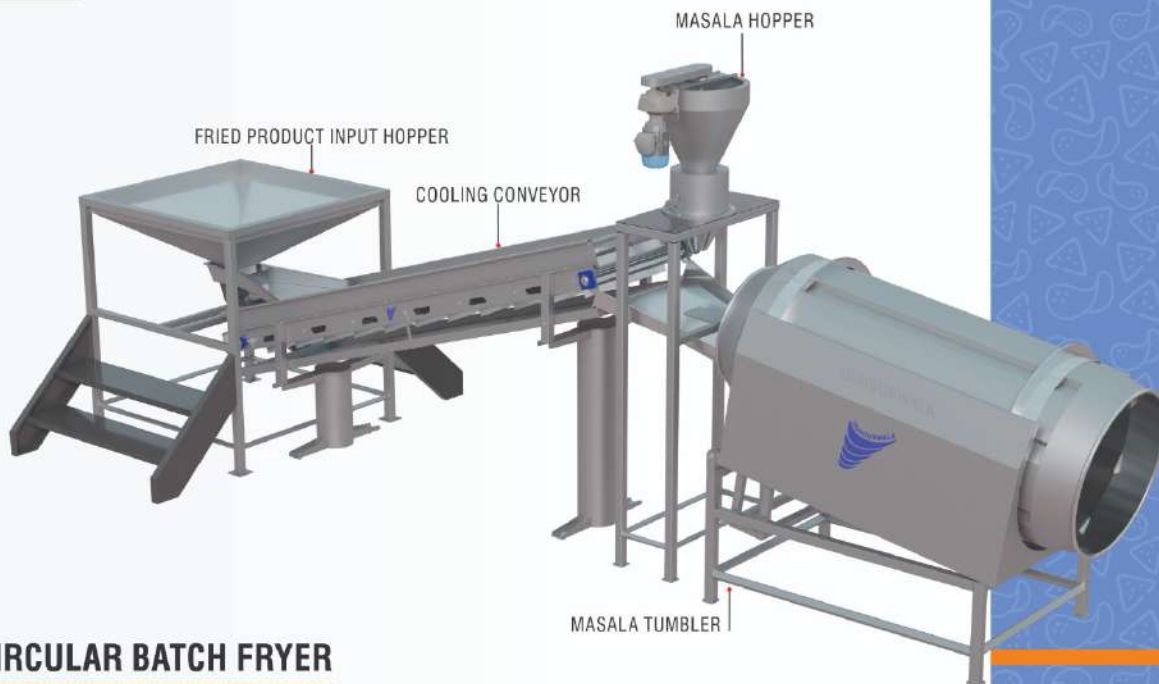

MULTIPURPOSE NAMKEEN FRYER WITH BOTTOM CONVEYOR

FEATURES

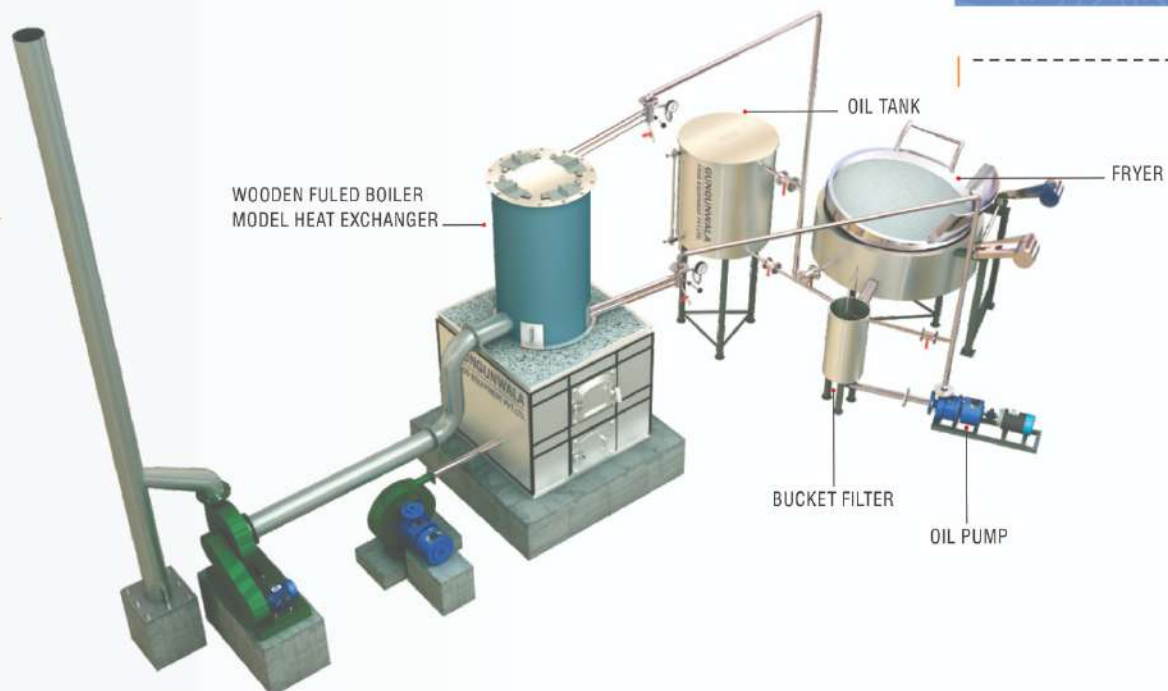

Model	CNF-250	CNF-350	CNF-500	CNF-750	CNF-1000
Production Capacity	250 Kg/Hr	350 Kg/Hr	500 Kg/Hr	750 Kg/Hr	1000 KG/Hr
Maximum Power Consumption	8.5 HP	8.5 HP	11 HP	12 HP	12 HP
Edible Oil Holding Capacity	320 Ltr.	390 Ltr.	510 Ltr.	550 Ltr.	650 Ltr.
Control System	PLC-HMI				
Product Detection Sensors	Attachment Available in all Models				
Fryer Insulation	Fiber Glass Insulated Fryer Body (Minimizing Heat-Loss)				
Supported Products	All Floating Products				
Auto Oil Level Management System	Attachable in all Models				
Warranty	1 Year				
Installation Type	Free Stand				
Width	15 Feet		16 Feet		17 Feet

CIRCULAR BATCH FRYER

Pan Size (Inch)-36/42/48/52/54/60

FEATURES

Model	Direct Heating	Inbuilt	External Heating	Limpet Coil
Available Size in Inches	26", 30", 36"	30", 36", 42", 48", 52", 54"		
Fuel	Wooden Pellets, Diesel, Gas, Wood, Briquettes			Thermic Fluid
Control Type	PLC-HMI			Manual
Fryer Insulation	Fiber Glass Insulated Fryer Body (Minimizing Heat-Loss)			
Auto Oil Level Management System	Attachable in all Models			
Power Consumption	3 to 5 HP			
Material	SUS-304 and SS-304			
Product	Namkeen, Dal, Fryums, Chips			

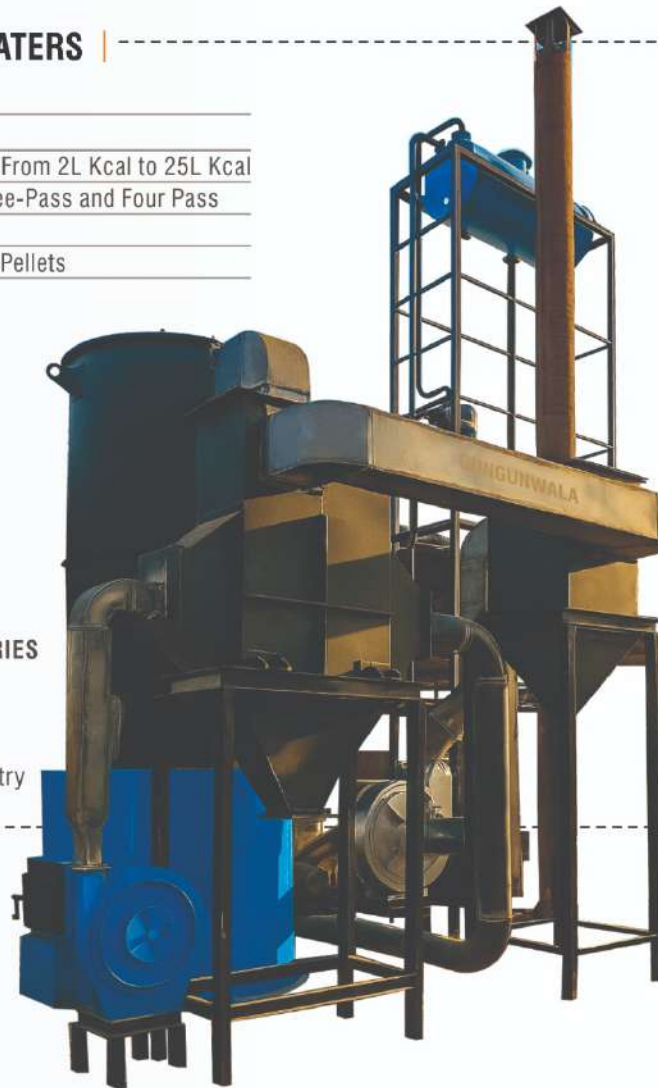

THERMIC FLUID HEATERS

Features

Heat Transfer Capacity : From 2L Kcal to 25L Kcal
Heater Technology : Three-Pass and Four Pass
Efficiency : upto 85%
Fuel : Wood, Briquettes, Pellets

APPLICABLE INDUSTRIES

- Food Industries
- Plastic Industries
- Textile Industries
- Petrochemical Industry

PLANT

PRODUCT BRIEF AND ADVANTAGES

GUNGUNWALA Wood Fired Vertical Thermic Fluid Heater : Harnessing the Power of Nature of Heat Immeres yourself in the world of sustainable heating solutions with the **GUNGUNWALA** Wood Fired Vertical Thermic Fluid Heater. Engineered to harness the natural energy of wood, this innovative heater represents a clean and efficient way to generate heat for various industrial applications.

FOOD EQUIPMENT PVT. LTD.

RECTANGULAR BATCH FRYER

Pan Size (Ft)-4.5x2.5/5x3/5x3.5/5x4

FEATURES

Model	Direct Heating	Inbuilt	External Heating	Limpet Coil
Fuel	Wooden Pellets, Diesel, Gas, Wood, Briquettes			Thermic Fluid
Automation Level	PLC-HMI			Manual
Fryer Insulation	Fiber Glass Insulated Fryer Body (Minimizing Heat-Loss)			
Auto Oil Level	Attachable in all Models			

BOONDI ATTACHMENT

ACCESSORIES PRODUCTS

POTATO PEELER

HYDRO FOR POTATO CHIPS

NAMKEEN MIXER

COATING PAN

POTATO SLICER

DOUGH MIXER

FLOVAR APPLICATOR & DRUM

KURKURE EXTRUDER

RECTANGULAR FRYER

CIRCULAR FRYER

BANANA SLICER

NAMKEEN EXTRUDER

OIL STORAGE TANK

FROM 5,000 Ltr. to 50,000 Ltr.
